Step 1 Setup MongoDB

Download MongoDB

To download MongoDB we recommend the official website.

- 1. Open the link https://www.mongodb.com/try/download/community.
- 2. Choose the version for your OS. in my case is windows.

3. A msi file will be downloaded.

Install MongoDB

1. After it finishes, Go to the download folder then run the setup file.

2. Then next, choose complete installation then next.
